UNVEILING NEW HORIZONS – MEHLER SYSTEMS

For decades, our Group has been a trusted name in the world of tailored mission-enabling solutions for military, law enforcement, special forces, and security professionals. During that time we have consistently upheld industry-leading standards in ballistic protection, body armour, carrying systems, and tactical clothing. Formerly known as Mehler Vario System Group, we are taking the next step in our evolution: a transformation that encompasses all companies and capabilities within our Group, which also embraces a fresh branding on a Group level: we are now Mehler Systems.

The core aim of our transformation is to strengthen the collaboration amongst the companies comprising Mehler Systems and thus pave the way for a more integrated and seamless range of offerings.

Already this transformation is allowing us to better tap the collective strengths and expertise of our diverse companies, positioning us to deliver a more comprehensive array of solutions. Having more tightly aligned our efforts, we now offer our customers a more holistic and integrated suite of products and services. Moreover, we believe this sharpened alignment further ensures that the solutions we develop are of the highest quality and can seamlessly work together via optimised product interfaces in every mission scenario. All these changes are reflected in our new Group brand: Mehler Systems.

As part of this new aligning we simultaneously created Mehler Protection, which consolidates Mehler Vario System, Mehler Law Enforcement, and Mehler

Engineered Defence into a single brand, structured to be your comprehensive source for body armour, advanced platform protection systems, and an entire suite of ballistic protection services and solutions.

As the CEO of Mehler Systems, I am honoured and proud to lead a team of highly motivated, dedicated professionals driven by excellence and innovation. Our success as a team is rooted in collaboration, honesty, transparency, and unwavering dedication to a mission that aims to provide the best support to a very special group of customers who put their lives on the line for the safety and security of our societies.

We believe that our new name, brand, and logo all reflect this evolutionary move to align the competencies of our Group's companies and enable them to work together as a more cohesive, united team.

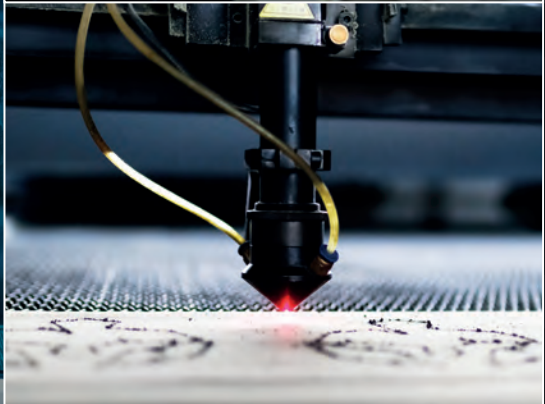

This commitment guides us into the future.
We do not rest. We develop, optimise,
innovate, listen, learn, and collaborate.
We are Mehler Systems.

I invite you to explore the following pages
to discover our world-class solutions, each
of which embodies the spirit of Mehler
Systems. We are excited about the future
and grateful for your continued
support on this journey together.

Sincerely,

Thomas Homberg,
CEO Mehler Systems

OUR STORY

Mehler Systems is a group of companies that together form a globally active manufacturer of top-notch protection and tactical gear solutions for law enforcement and military forces.

Our portfolio of tactical equipment, garments, and body and platform armour systems is as impressive as it is extensive. It's also highly regarded by those who demand greater empowerment to complete missions more safely and successfully.

Over the past four decades, we have grown to become a global market leader known for our ability to innovate and consistently set new standards. Our comprehensive approach to designing, engineering, and manufacturing products is meticulously managed within our group. This encompasses every step from initial analysis and design, the prototyping, the development, the rigorous testing, the entire solution process right on through to timely delivery.

PRINCIPLES WE EMBRACE

01.

CONTINUOUS INNOVATION

From revolutionary ideas come products that deliver. By leveraging expertise and advanced technologies, we keep our development pipeline full at all times.

02.

UNCOMPROMISING QUALITY

Quality means reliability. That's why we are unwaveringly committed to using none but the finest materials and construction processes for our products.

03.

END-USER DRIVEN

Those who know best what makes for a great piece of equipment are the ones whose lives depend on such products. So, when they speak, we listen. Closely.

04.

TRANSPARENCY

We believe in open, honest communication. It is at the heart of everything we do. Why? Because transparency is the foundational ingredient for trust.

WELCOME TO THE WORLD OF MEHLER SYSTEMS

In a realm where precision matters, Mehler Systems stands as the pinnacle of innovation, offering versatile and reliable tactical solutions. Discover more about our sub-brands; Mehler Protection, Lindnerhof, and UF PRO.

MORE INFO

**MEHLER
PROTECTION**

CUTTING-EDGE BALLISTIC PROTECTION

Mehler Protection specialises in expertly engineered defence solutions that meet the demands of military and law enforcement units. Quality ballistic protection products are proudly crafted in Germany, where they also undergo rigorous in-house testing. Commitment to quality is reflected in Mehler Protection's state-of-the-art manufacturing facility built and outfitted with industrial-scale capabilities that allow for tight monitoring and control of development and production processes to ensure the highest levels of product reliability and performance.

BODY ARMOUR

Superior performance and enhanced protection are hallmarks of the company's advanced solutions that help ensure the safety of personnel in the field.

BALLISTIC PROTECTION

A wide range of personal protection products and solutions designed to provide maximum safety in high-risk environments.

CARRIERS

Tactical carriers and vests tailored to user-defined needs; products include covert vests for discreet operations, overt vests (over-the-uniform/duty gear), and plate carriers for greater protection.

SHIELDS

Top-of-the-line protection in critical situations with hand-held ballistic shields, wheeled ballistic shields, riot shields, and more.

BALLISTIC HELMETS

Lightweight modular ballistic helmets for a wide variety of military and police applications.

MORE INFO

M.U.S.T.

M.U.S.T. stands for **Modular Universal Scalable Technology**. It also stands for versatility because each M.U.S.T. component can be combined with every other. And M.U.S.T. stands for speed because operators can configure or reconfigure it in minutes when the mission scenario abruptly changes. M.U.S.T. is a standout solution for a variety of reasons, beginning with its origin: a collaborative project within the Mehler Systems group. Working together, innovators conceived of an extensively scalable and adaptable system built around intelligently conceptualised interfaces that would, thanks to ongoing further development, offer an endlessly expanding number of configuration options and possibilities.

PLATFORM ARMOUR

In these times rife with threats and challenges, safeguarding critical assets across diverse terrain and environments demands precisely the types of innovative and adaptable platform protection solutions provided by Mehler Protection.

MILITARY VEHICLE PROTECTION

The comprehensive modular M-RACC product line represents holistic protection against ballistic and fragment threats, mines, anti-tank weapons, and more.

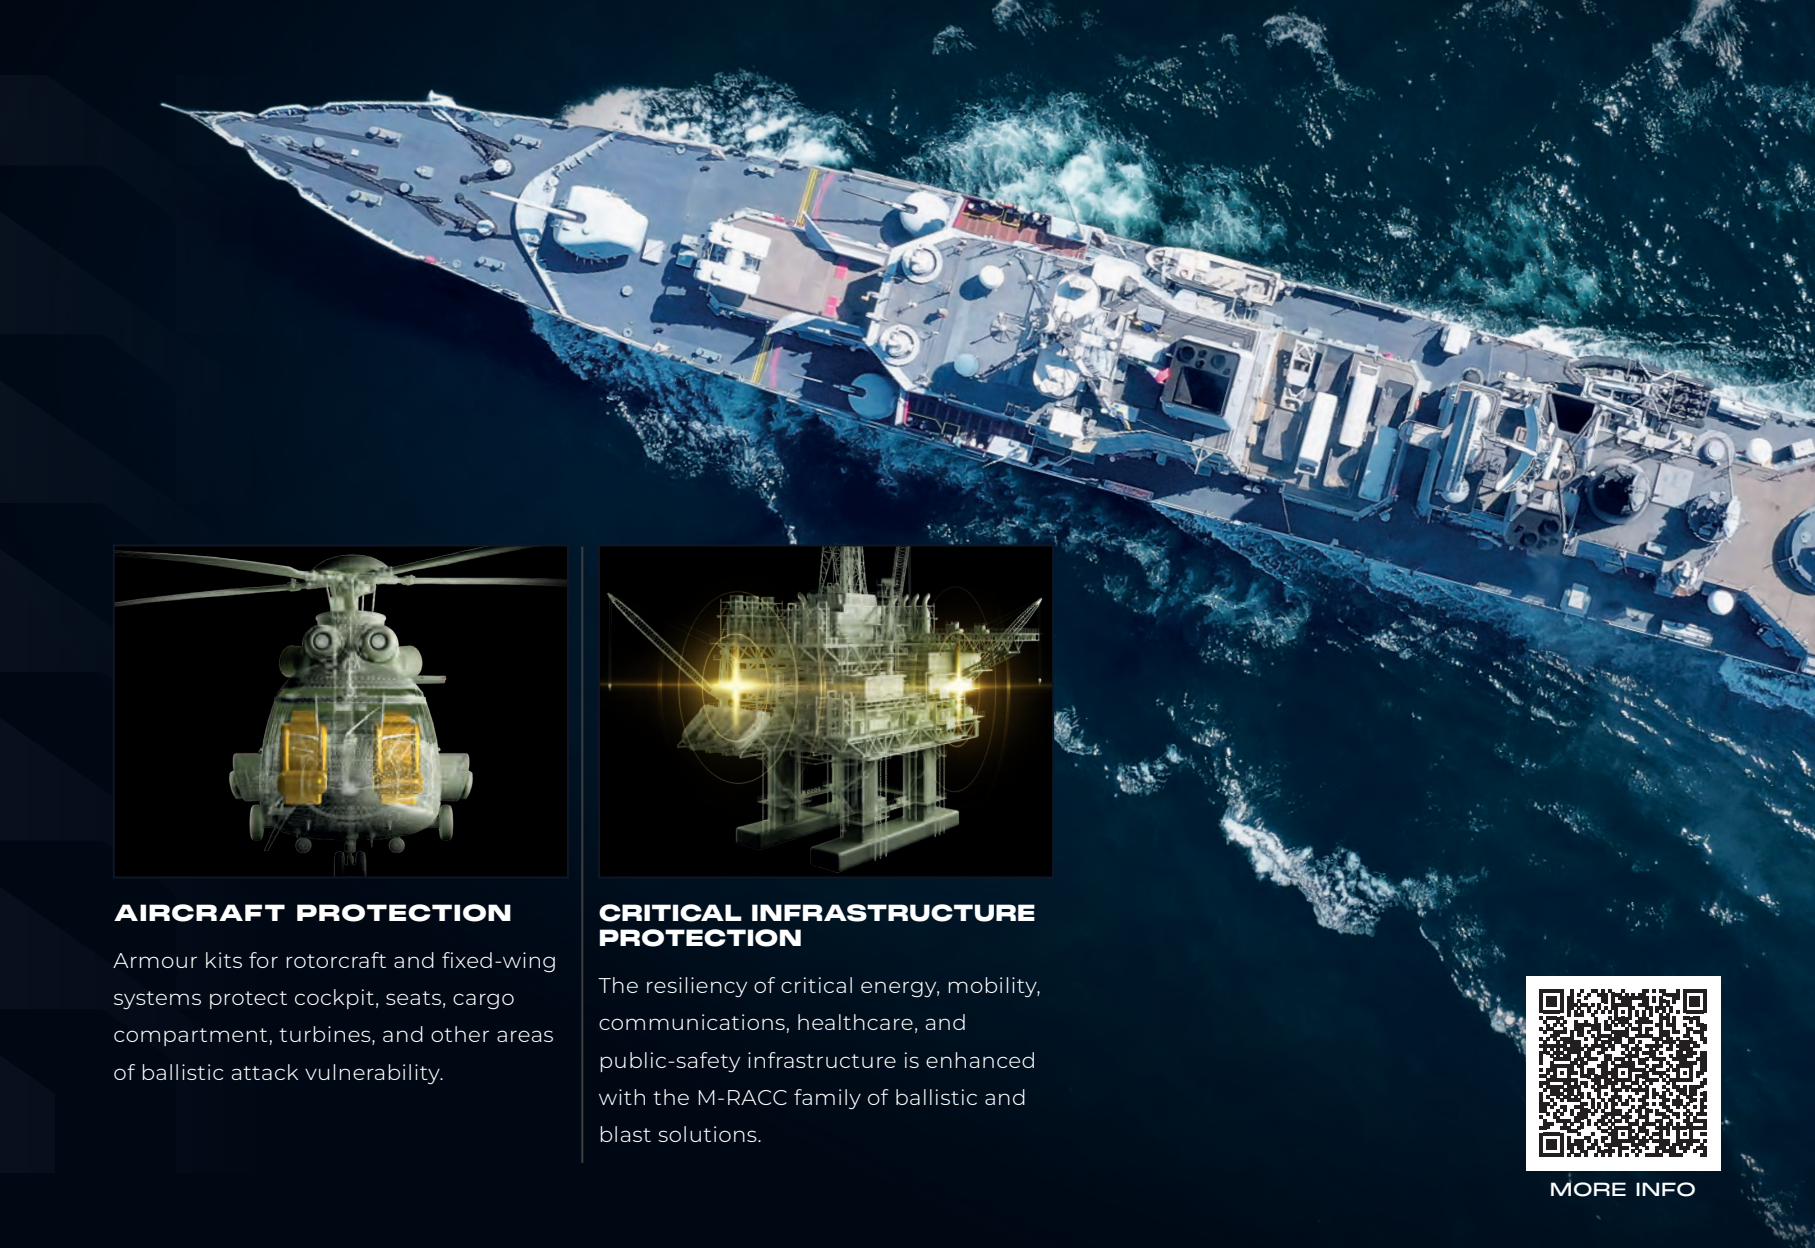

CIVILIAN VEHICLE PROTECTION

Inconspicuous, lightweight, tailor-made civilian armour hardens non-military vehicles against terrorism and other forms of violent attack.

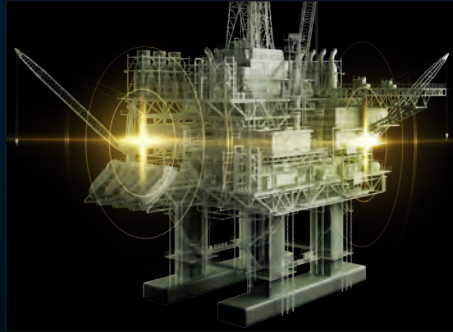

NAVAL PROTECTION

Versatile solutions address contemporary maritime safety challenges and demands. Adhering to military standards, these made-to-order, lightweight protection solutions are available for vessels of all sizes to guard against a wide array of threats.

AIRCRAFT PROTECTION

Armour kits for rotorcraft and fixed-wing systems protect cockpit, seats, cargo compartment, turbines, and other areas of ballistic attack vulnerability.

CRITICAL INFRASTRUCTURE PROTECTION

The resiliency of critical energy, mobility, communications, healthcare, and public-safety infrastructure is enhanced with the M-RACC family of ballistic and blast solutions.

MORE INFO

M-RACC SYSTEM

M-RACC (**Multi-Role Armour Composites/Components**) is a versatilely modular and robust yet lightweight platform armour system for protecting naval systems, aircrafts, land vehicles, critical infrastructure, and more against ballistic threats. This scalable system is customisable to suit your platform's unique requirements.

MORE INFO

LINDNERHOF

ELITE CARRYING SOLUTIONS

Born out of battlefield experiences, Lindnerhof was founded by a German Special Forces soldier with a relentless commitment to developing performance-enhancing tactical gear. The goal today is the same as at the beginning: to cultivate and maintain close working relationships with elite units. Lindnerhof complements the capabilities of Mehler Systems by providing modular, functional, high-quality carrying solutions suited specifically for tactical missions. Designed for use by special forces, military personnel, and law enforcement, the products prioritise rapid access to carried gear, the ability to extensively customise, and provision of the help operators need to be tightly organised and speedy.

CARRIERS

Smart, lightweight solutions make setting up to carry gear effortless. Versatile, comfortable carrying systems provide reliable support for operators whether the mission calls for toting few or many items.

MODULAR POUCHES

With modular pouches, the size of magazines, radios, and other vital gear to be carried on the mission won't matter. Designed for efficiency, these tactical pouches readily accommodate large or small pieces of equipment.

TACTICAL BELTS

Lightweight, strong, fully adjustable belts enhance gear-carrying options in pressure-packed situations. Because they're user-configurable, these belts enable wearers to keep vital items at their fingertips.

MORE INFO

SLINGS AND STRAPS

Hands-free carrying, smoother transitioning, improved handling, and secure retention of weapons are amongst the tactical performance needs the brand's slings and straps were designed to meet.

UF PRO

HIGH- PERFORMANCE TACTICAL CLOTHING

UF PRO designs and manufactures high-quality, high-end tactical clothing systems for professional end-users who demand the finest in mission support. Fabricated from premium materials by skilled crafters, each piece is designed to help top-tier professionals perform at their best. And each piece is backed by decades of experience in premium manufacturing, by extensive research and testing programmes, and by solicitation of valuable feedback from frontline personnel. Trusted by elite military and law enforcement units, UF PRO unwaveringly strives for perfection in every product so that the tactical clothing consistently meets the rigorous standards of these forces.

COMBAT UNIFORMS

The Striker BDU offers unmatched comfort and performance for field professionals. With strategic padding and pockets, it maximizes functionality and protection, allowing wearers to concentrate fully on their mission. Crafted from breathable, high-performance materials, it ensures exceptional comfort and can incorporate FR technology. Meticulously designed, it excels in various environments.

COLD WEATHER GEAR

In subzero temperatures, tactical clothing must do more than merely provide sufficient warmth—it also needs to allow abundant freedom of movement and be capable of performing even when wet with sweat or external moisture. Enter the Delta Cold Weather Gear range, a versatile system built to protect wearers in freezing weather whilst also enabling them to readily adapt to the environmental conditions of the moment no matter if they're scaling a mountain or just lying low.

RAIN GEAR

UF PRO Monsoon rain gear allows wearers to stay dry and comfortable during a hard downpour. Constructed from advanced breathable yet waterproof laminates and offering unique functional features, these garments help ensure mission efficiency in extreme wet-weather conditions.

EDC CLOTHING

UF PRO EDC shirts, jackets, and pants make superb everyday, all-day companions. Engineered with cutting-edge moisture-wicking materials that provide abundant protection, wearers can remain comfortable without sacrificing functionality (especially in situations where maintaining an inconspicuous appearance is essential). Abundant pocket storage capacity, too.
